

*International and Interdisciplinary Congress of the
New European Surgical Academy on*
EXCELLENCE IN FEMALE SURGERY

PERUGIA, Italy

April 19-20-21, 2018

“He is a good surgeon who possesses courage and presence of mind, a hand free from perspiration, tremorless grip of sharp and good instruments, and who carries his operation to success and to the advantage of the patient, who has entrusted his life to the surgeon. The surgeon should respect the absolute surrender and treat his patient as his own son “(Susruta Samhita, 780 BC)

Congress President and NESAs Secretary General

Gian Carlo Di Renzo, Perugia – Italy

NESA President

Michael Stark, Berlin – Germany

NESA Director

Tahar Benhidjeb, Abu Dhabi – UAE

Congress Coordinator

Sandro Gerli, Perugia – Italy

April 19, Thursday

9:30 am - 4:00 pm

PRECONGRESS LIVE SURGERY

CREO - Centro di Ricerca Emato-Oncologico, Azienda Ospedaliera di Perugia
Participants can follow the performance from the Aula “**R. L. Montalcini**” of CREO, Azienda Ospedaliera di Perugia

Confirmed surgeons:

Gabriela Baiocchi, Geoffrey Cundiff, Danilo Dodero, Alessandro Favilli, Sandro Gerli, Antonella Giannantoni, Mario Malzoni, Alberto Mattei, Ivan Mazzon, Ettore Mearini, Giuseppe Micucci, Camran Nezhat, Farr Nezhat, Gennaro Raimondo,

OPENING CEREMONY

6:00 p.m. – 7.30 p.m.

Sala dei Notari – City Centre

Chairpersons: G.C. Di Renzo, M. Stark, T. Benhidjeb, S. Gerli

Opening lectures:

“Highlights in the history of female surgery”

Donatella Lippi Firenze Gian Carlo Di Renzo, Perugia

“Medicine, war and human rights”

Gino Strada – Emergency

Welcome Cocktail – (Offered by the PREIS School, Florence)

April 20, Friday

8:30 am - 10:30 am

Room A Session 1 “*Advances in endoscopy*”

**A little look save a lot of talking (Ivor Lewis 1895-1982)*

**Laparoscopy has a definitive role in cases where the trauma of incision is greater than that of excision (Anonymous)*

**Humans can survive easily without an appendix, but surgeons can do so only with difficulty (Rudolph Virchow 1821-1902)*

Chairpersons: Paul Fogarty, UK - Gennaro Raimondo, Italy – Liselotte Mettler, Germany

T-shaped uterus: resectoscopic treatment - Ivano Raimondo, Italy

Adenomyomectomy - Abo Taleb Saremi, Iran

“Essentials” in gynaecological endoscopy – Federica Perelli, Alberto Mattei, Italy

The comprehensive approach for hysterectomies via laparoscopy

Liselotte Mettler, Germany

Hystero-laparoscopy modern diagnostic and curative approach in infertile patient Nicolae Suci, Romania

Room B Session 2 “*Breast surgery*”

Today it is a marvel, tomorrow it can be in the trash bin (Alexandr Solzhenitsyn 1918-2008)

Chairpersons: Sven Becker, Germany - Paolo Gerli, Italy - George Zografos, Greece

miRNAs in breast cancer – Eleni Zografos, Greece

How oncology determines surgery: from Halstead to Veronesi - Sven Becker, Germany

Muscle sparing–skin reducing mastectomy - Paolo Gerli, Italy

Coexistence of pregnancy and breast cancer diagnosis - Flora Zagouri, Greece

Liver impairment during lactation - Kalogridaki E., Greece (communication, 10’)

Satisfactorily responds to antituberculous treatment: surgery has no role in the management of tuberculous mastitis in Egyptian women - Saied G M, Moustafa K G, Egypt (communication, 10')

10:30 am *Coffee Break*

11:00 am - 1:00 pm

Room A Session 3 “*Cesarean delivery*”

The decision is more important than the incision (Robert Lawson Tait 1845-1899)

Chairpersons: G.C. Di Renzo, Italy - M. Stark, Germany

Evidence based cesarean section - Michael Stark, Germany

Cesarean section in China – Yanyan Ma, China

Birth in war areas and the impact of cesarean delivery - Raffaella Baiocchi, Emergency

Cabo Verde: Time to switch from cesarean delivery to vacuum delivery

Tom Schneider, Netherlands (communication, 10')

Complications of cesarean section: 50 years' review – Nicholas Pairaudeau, Toronto (communication, 10')

Study of carbohydrate enriched electrolyte liquid intake during normal labor in Chinese women - Xu Y J, Cina (communication, 10')

1:00 pm - 2:00 pm *Lunch Break and Posters View*

2:00 pm - 4:00 pm

Room A Session 4 “*Endometriosis*”

By applying this broader set of criteria, we were able to uncover substantial, if not irrefutable, evidence that hysteria, the discredited mystery disorder of women, was most likely endometriosis in the majority of cases (Nezhat brothers, 2012)

Chairpersons: Leila Adamyan, Russia - Mario Malzoni, Italy

Introductory lecture: Endometriosis today and tomorrow – Leila Adamyan, Russia

Ultrasound diagnosis of deep infiltrating endometriosis – Igal Wolman, Israel

Difficulties in laparoscopic treatment of deep infiltrating endometriosis

Farr Nezhat, USA

3D laparoscopy for surgical management of endometriosis - Mario Malzoni, Italy

Special Lecture: Need for paradigm shift in endometriosis management methods -

Abo Taleb Saremi, Iran

4.00 p.m. *Tea Break*

4.30 p.m. – 6.10 p.m.

Room A Session 5 “Cesarean delivery: complications and morbidity”

It is possible that placenta may adhere so firmly as to make it unsafe to separate it with our fingers (Thomas Denman & Michael Ryan, 1836)

Chairpersons: Mark Kurtser, Russia – Gerry H. A. Visser, Netherlands

The epidemics of cesarean delivery and the FIGO initiative to reduce its impact worldwide

– Gerry H. A. Visser, Netherlands

Uterine morbidity after caesarean section – Ospan Mynbaev, Avinoam Tzabari, Russia,

Michael Stark, Germany

Anomalies of placentation and PPH – Antonio Malvasi, Italy

The long term results and chronic pain after cesarean section

Dragan Belci, Croatia

Myomectomy during caesarean delivery – Andrea Tinelli, Italy

6.10 p.m. *Adjourn*

April 21, Saturday

8:30 a.m. – 1:00 p.m. NESAs Executive Board Meeting – Room C

8:30 a.m. - 10:30 a.m.

Room A Session 6 “*New Projects and Progress in Surgery*”

**A young doctor starts career with 20 drugs per disease and the old physician ends career with one drug per 20 diseases (William Osler 1849-1919)*

**When doctors and scientists became ill, they ask “Who is the best doctor for this problem?” and not “Which multicentre controlled trial would be best for me?” (Emil Jay Freireich 1996)*

**A good surgeon is a doctor who can operate and knows when not to operate (Theodor Kocher 1841-1917)*

Chairpersons: F. Puma, Italy - P. A. Wetter, USA – Svend Schulze, Denmark

ERAS (Enhancement recovery after surgery – Jacopo Vannucci, Italy

Update in surgical treatment of cervical cancer - Pierluigi Benedetti Panici, Italy

Panel on surgical training and education - Alexei Ivanov, Russia

Current and future directions in the management of ovarian cancer

Jalid Sehouli, Germany

Uterine fundectomy: new surgical technique and indications

Abo Taleb Saremi, Iran

Fertility sparing surgery in treatment of early stages of cervical cancer - the new standard of care - Alexandar Stefanovic, Serbia

“NESAs Vision Project”: Oncology treatment in the 21st century- Michael Stark, Germany

Room B Session 7 “The advances in vaginal surgery”

No single technique is suited to all cases (Constantino Mendieta, 2006)

**** The surgeon who learns the basic precepts of asepsis, hemostasis, adequate exposure, and gentleness to tissue has mastered his/her most difficult lessons (Robert M Zolliger 1903-1992)***

Chairpersons: Danilo Dodero, Italy - Tommaso Simoncini, Italy

Legal and ethical aspects in gynecological surgery – Simona Zaami, Enrico Marinelli, Italy

Solid state laser for vaginal incontinence - Danilo Dodero, Italy

Non hormonal treatment of vaginal atrophy and preoperative and postoperative management – Tommaso Simoncini, Italy

Vaginoplasty: a modified laparoscopic surgery for vaginal agenesis

Homa Bahrami, Abo Taleb Saremi, Tarlan Hamideh Khou, Iran (communication)

Modified McDonald cerclage: technique and outcome - Atiyeh Mirfendereski, Abo Taleb Saremi, Arash Pooladi, Iran (communication)

10:30 am *Coffee Break*

11:00 a.m. – 1:00 p.m.

Room A Session 8 “Treatment of infertility”

It is more important to know the patient who has the disease than to know the disease that has the patient (William Osler 1849-1919)

Chairpersons: Sandro Gerli, Italy – Vlad Tica, Romania

Fertility enhancing surgeries-role of minimally invasive surgery - Rooma Sinha, India

PNEIFERT: an innovative clinical model for a personalized and participatory care in reproductive medicine and ART - Stefania Iaccarino, Italy

Laparoscopy in infertility work up: when and why – Sandro Gerli, Italy

Lymphocyte immune therapy in recurrent IVF failure – Ahad Zare, Abo Taleb Saremi, Narges Roumandeh, Iran (communication)

Room B Session 9 “Natural orifice surgery and robotics”

***Surgical approach nowadays proposed appears due to demand of society to offer patient methods less and less invasive “surgery without traces”(Tania Gonzalez Leon, 2011)**

***When did the march of history start breaking into the sprint? (Toon Verhoeven, 1995)**

Chairperson: Antonello Forgione, Italy - Camran Nezhat, USA - Giovanni Scambia, Italy

Recent advances in NOS/NOTES - Antonello Forgione, Italy

Natural orifice surgery: philosophical and bioethical issues towards new conceptions in medicine - Luca Cucurachi, Italy

Role of robots and robot arms in minimally invasive surgery - Camran Nezhat, USA

Evaluation of robotic surgery: multiport, single port, flexible, innovative robots Antonello Forgione, Italy

Role of robots in urogynecology – Andrea Boni, Italy

Robotic surgery: the human factor – Mona Orady, USA

1.00 a.m. - 2:00 p.m. *Lunch Break and Posters View*

2:00 p.m. - 4:00 p.m.

Room A Session 10 “Urogynecology”

Be a perfectionist in everything that you do, but particularly in urogynecology (George D Webster, 2013)

****Every surgeon should himself supervise the postoperative treatments (John Blair Deaver 1855-1931)***

Chairpersons: Geoff Cundiff, Canada – Elisabetta Costantini, Italy

Surgical treatment of stress incontinence by methods of robotic surgery

Ivan Kostov – Bulgaria

New approach to treat urinary stress incontinence – Jack Atad, Israel

What is the moral of the “mesh story”? – Geoff Cundiff, Canada

Non-invasive treatment of stress incontinence and other minor problems

Gabriela Baiocchi, Italy

Prolapse reconstructive surgery in sexually active women

Pier Luca Narducci, Italy

Complications encountered following midurethral slings at tertiary care center in India – Sanjay Sinha, India (communication 10')

4:00 p.m. - 4:10 p.m

Conclusions

The Presidents: Gian Carlo Di Renzo, Italy - Michael Stark, Germany - Tahar Benhidjeb, Abu Dhabi - Sandro Gerli, Italy
